# TABLE OF CONTENTS

# 2022 ZERO TOLERANCE KNIVES

**0350** PG. 33

All Zero Tolerance knives are proudly built in our Tualatin, Oregon USA manufacturing facility by our most skilled workers. Using only premium materials, they work to ZT's highperformance standards, ensuring each part of every ZT is built with precision and care. The operation of your ZT is conspicuously smooth, and fit-and-finish is second to none. Each one is confidently backed by our Limited Lifetime Warranty.

We produce over one million Zero Tolerance and Kershaw knives each year in our state-of-the-art facility. We ship hundreds of thousands of units to authorized dealers throughout the US. We employ approximately 400 local people and have local partnerships with companies employing hundreds more. We are committed to quality, to community, and to ZT owners everywhere.

# **ORIGINAL DESIGNS**

ZT's in-house design team creates legendary, innovative, and industry-changing Originals. Using the latest technology in our state-of-theart Tualatin, Oregon USA factory, ZT pushes the boundaries of what a premium knife can offer at the mass production level. ZT Originals offer an impressive combination of style, performance, and fresh ideas. From slim formal carries like the 0707 to beefy folders like the 0308, count on ZT Originals to deliver the best.

Look for this icon designating ZT ORIGINALS.

Packed with innovation, the

Based on the award-winning 0999, the 0990 streamlines this legendary design. Despite its skeletonized structure, this ZT is reliably strong thanks to its steel construction. Other ele-

ments pay homage to the original 0999, including an exposed "floating bridge" near the top of the handle, carbon fiber scales with a front steel overlay, and cutout windows in the blade and near the pivot. Instead of a ZT logo on the blade itself, the words "Zero Tolerance" are subtly debossed into the backspacer. The CPM 20CV blade offers excellent edge retention and opens reliably with KVT ball bearings. Once unobtainable for

most, the 0990 offers the best

way to bring the legend home.

ZT Originals

0762 delivers a top-of-the-line ZT experience. Its modified sheepsfoot blade and carbon fiber handle scales offer the ultimate medium-size ZT carry. Open the 0762 reliably with the ZT Tuned Detent System (TDS™), allowing the blade to deploy even with pressure on the lockbar. The ZT Sub-Frame Lock secures the blade into place without sacrificing the lightweight benefit of carbon fiber. A two-tone CPM 20CV blade is pleasing to the eye and just as useful during work tasks. The 0762 stands out with an array of aesthetic details, including matching blueanodized hardware and sleek handle windows. All of these premium features create a ZT showpiece slicer.

For the first time ever, ZT is using a black-oxide BlackWash™ finish with its classic tiger stripe pattern.

The 0308BLKTS offers a beefy 3.7-inch tiger stripe blade with premium CPM 20CV blade steel. The handle features black G10 on the front scale with a titanium back. Both the front and back are heavily 3D machined for an ultra-secure grip. The .25-inch solid pivot features a custom nut that enables it to be adjusted in the field with a 1/2-inch wrench.

The pocketclip hole pattern is compatible with many aftermarket clips.

ZERO TOLERANCE KNIVES

0223 MADE IN -USA-

MSRP \$590.00 UPC 087171054971

Designed by Tim Galyean, the 0223 takes its inspiration from a classic military knife.

A clip point blade of CPM 20CV steel offers exceptional hardness and wear resistance. Black DLC coating gives it a non-glare finish. The titanium handle has a frame lock for reliable lockup. The 0223 opens with ZT's KVT ball-bearing system. Earth brown G10 handle scales echo the original military knife's stacked leather handle.

A bronze-anodized titanium tube spacer and decorative holes drilled in the blade ricasso add to the subtle details of this handsome knife.

ZERO TOLERANCE KNIVES

This ZT-Ernest Emerson collaboration provides both practicality and style.

The clip point blade is CPM 20CV high-chromium stainless steel. This powdered metallurgy tool steel has a high volume of vanadium carbides for exceptional wear resistance and a truly long-lasting edge. The highest level of chromium of any high-vanadium steel gives it excellent corrosion resistance as well.

The handle is titanium with a green carbon fiber overlay on both sides of the handle.

This fully manual knife opens one-handed with a thumb disk.

ZERO TOLERANCE KNIVES

## LIMITED LIFETIME WARRANTY

Zero Tolerance knives from Kai USA Ltd. carry a limited warranty for the lifetime of the original owner, except when stated otherwise. We guarantee our knives against manufacturing defects in material and construction and to perform as advertised when properly used and maintained. The Limited Lifetime Warranty is non-transferable and does not extend to normal signs of wear, rust, damage or breakage due to improper use, improper maintenance, accidents, loss, or theft. This warranty is void on products that have been modified in any way. Any product we determine to be defective will be repaired or replaced solely at our discretion. To receive warranty repair or replacement, the owner must send the product to be evaluated by Kai USA Warranty Services in our Tualatin, Oregon headquarters. In addition to the provisions of this warranty, the owner may also have other rights that can vary by state. No other warranties are implied or expressed other than what is specifically stated here. Kai USA Ltd. reserves the right to determine what constitutes normal wear, improper use/maintenance, and modification.

If you accidentally break your ZT folder's blade, we can replace it for just \$40, pending material availability. Blades that break due to a manufacturing defect will still be replaced under warranty, free of charge. Blades marked "XXXX" are factory seconds and are not eligible for replacement.

# LIABILITY DISCLAIMER & WARNING

Zero Tolerance knives are intended and sold for legitimate everyday carrying, sporting, and professional purposes only. The purchase, use, and ownership of knives are subject to a wide variety of federal, state, and local laws and regulations. Always comply with all laws and regulations in effect in your area. Due to the complexity and constantly changing nature of these laws and regulations, it is the responsibility of the buyer to investigate and comply with the laws and regulations that apply in his or her specific area. You, and not Kai USA Ltd., are solely responsible for any claims resulting from violation of these laws and/or regulations.

Knives are extremely sharp tools and should only be used or handled with the utmost care and caution. Any use other than cutting (such as prying or twisting) is considered misuse and abuse—and will void your warranty. Zero Tolerance knives/Kai USA Ltd. is not responsible for any injuries resulting from misuse or abuse of the product.

Do not use any ZT knife as a throwing knife or a stabbing device. Throwing knives and knives developed for stabbing have a distinctly different design and function. ZT knives are not intended for throwing or stabbing; they are designed for cutting purposes only.

We reserve the right to change shipping terms, specifications, materials, discontinue products, adjust blade replacement price and availability at any time, without notice.

# ZT REPLACEMENT PARTS

In addition to a selection of free replacement parts, you can get replacements for other ZT parts as well. However, these premium ZT parts are more costly to manufacture, so we charge a small fee. Please check our website for details on the parts currently available.

# STEEL CHART

## CRUCIBLE CPM 20CV

This powdered metallurgy tool steel has a high volume of vanadium carbides for exceptional wear resistance and a long-lasting edge. The highest level of chromium of any high-vanadium steel gives it excellent corrosion resistance and polishability as well.

## CRUCIBLE CPM S30V

All-around premium knife steel that takes and holds an edge extremely well; also extremely tough and wear resistant.

## **CRUCIBLE CPM S35VN**

A stainless steel that offers enhanced toughness over S30V without loss of wear resistance. In knife blades, S35VN resists edge chipping and provides excellent edge retention.
